EXPERIENCE COMMUNITY

at Oakwood Village Prairie Ridge

Whatever life has brought — a wonderful family, satisfying career, great friends and memories — you've reached a point where you're ready for some assistance throughout the day. We understand this is a big decision, and we're here to make your transition rewarding.

Prairie Ridge is built on relationships. Here, you'll meet residents excited to share their remarkable backgrounds and stories. You'll be supported by dedicated caregivers who are eager to help, listen, and learn. Grandkids can visit and volunteers will be on-hand. You'll continue enjoying your hobbies, discover new interests, and make good friends.

All the while, we'll provide the support you need to thrive as you become a valued member of our Oakwood community.

Oakwood Seasons

Many people need only a little assistance to continue living a full life. Oakwood Seasons offers this assistance from trusted, caring members of our trained staff. Suites provide comfortable surroundings in which residents enjoy privacy and remain as independent as possible. The lovely setting also provides the opportunity for residents to engage each and every day through educational programs, social events and, exercise opportunities.

Oakwood Meadows

For residents who require a greater amount of attention and care than traditional assisted living offers, Oakwood Meadows Advanced Assisted Living may be just the right fit. Those who need extra assistance with daily activities or mobility have access to round-the-clock support, with staff available to provide two-person transfers, mechanical lift transfers, and hands-on dining assistance.

A Complete Continuum of Care

The staff at Oakwood Village Prairie Ridge is committed to ensuring that the individual needs of every resident are met. If care needs change and another level of care is needed, we will work closely with the individual and their loved ones to determine a care plan that's more suitable. Residents and their families take solace knowing that they have priority access to higher levels of care, should they ever be needed.
