

REHAB

Better. Every Day.

WHAT DOES REHAB MEAN TO US?

The answer is simple
– enhancing *your* life.

Surgery, Illness, Injury—experiencing any one of them can blur the way we feel about our abilities to navigate our everyday lives.

So how do we recover?

WE FOCUS.

And at Oakwood Village University Woods, our focus is on you. Here, our teams of highly trained, dedicated professionals provide comprehensive services and develop individualized therapy programs that get those we serve back to their lives as quickly as possible—and help you be the very best you that you can be.

REFRESH

the way you plan ahead with
Prehab at Oakwood Village
University Woods.

Whether you have a planned surgery approaching, or are faced with an unexpected illness or injury, you'll have important decisions to make about rehab. Certainly, the further in advance you plan, the better. Making informed decisions and choosing a trusted rehab provider with a proven reputation will help ensure the best results from the recovery process.

OUR PREHAB PROGRAM gives you the information you need to make a smooth transition from the hospital to rehab. You can attend one of our Prehab events and learn about what to expect during the rehab process, meet some of the people you will work with directly and tour our rehab gym, private rooms and dining room. You'll also have a chance to ask any questions you may have and get information about the rehabilitation process you may have not yet considered. This is highly beneficial if you're planning for surgery or if you simply want to be prepared for what the future could bring.

*To learn more about the Prehab program and upcoming events,
please call (608) 230-4646
or visit www.oakwoodvillage.net/healthcare.*

RECOVER

Your complete recovery.

What is rehab's role?

It's about you, as an individual. There are many important factors that need to be taken into consideration—your lifestyle; the type of surgery, illness or injury; your personal goals for recovery; your strengths and your weaknesses. At our community, we evaluate all of these factors and work closely with you to develop a plan of care that will best suit your unique needs and preferences. This allows us to help you get back to doing what's most important to you more quickly.

HAVING A PERSONALIZED PLAN IN PLACE CAN:

- Establish a focused timeline for healing.
- Help develop specialized exercises and therapy.
- Increase muscle strength, flexibility and endurance.
- Lower the risk of subsequent injury.
- Help prevent a return to the hospital.

Early in your stay at Oakwood, you will meet with an interdisciplinary team to discuss your personal plan of care. By having a personal plan, starting it as soon as possible and remaining focused on it—you'll help yourself in invaluable ways. You'll regain function faster; you'll regain more function; you'll be back to being you.

RESOLVE

to understand what you need
to know about rehab.

People often don't realize that being discharged from the hospital after an injury, illness or surgery doesn't necessarily mean they're ready to return home on their own. While rehab will typically begin in the hospital, patients will improve their chances of a complete recovery with a short stay in a community like Oakwood Village University Woods.

WHAT OUR CLIENTS HAVE TO SAY

"The physical therapy department is world class!"

"Every member of the staff that I encountered was extremely professional and thorough and always accomodating."

"The staff has patience, understanding and a great sense of humor."

A SHORT STAY WITH US GIVES YOU SEVERAL ADVANTAGES OVER IN-HOME REHAB.

Rehab in your home comes with a whole set of challenges beyond the recovery process. Cooking, cleaning and other household chores can easily become a means of overexertion. And even if someone is there to help, people recovering at home often find it difficult to sit these things out.

With us, however, meals are prepared for you and you'll enjoy a stay in a comfortable, private suite. Here, there is a team of interdisciplinary professionals available seven days a week to help with pain management and to assist you in making the best choices for a successful recovery and return home.

We also offer the following complimentary amenities:

- Wireless Internet
- Local and long-distance telephone
- Cable television

PREPARING FOR YOUR STAY

We recommend you bring:

- Comfortable walking shoes
- Seven days worth of comfortable, washable, loose-fitting clothing
- Personal toiletries (complimentary items are available)
- Medicare and insurance cards
- Copies of advance directives
- Address book with contact information of friends and family

Things to leave at home:

- Delicate clothes that may not launder easily
- Money and valuables
- Keepsakes and jewelry

TRANSITIONING HOME

When you come to Oakwood for short-term rehab, our goal is the same as yours: to return you home as quickly as safely possible. A team of professionals will work with you throughout your stay to help you in accomplishing this goal. Upon arriving at Oakwood, you are assigned a social worker, whose primary responsibility is to assist you in planning for your return home. We can recommend and help arrange for services upon your return home as needed. If you live in the Madison area, a therapist can come to your home to conduct a home evaluation, providing useful recommendations on how to make adjustments within your home to make your return a safe one.
